PRODUCT INFORMATION

RENOLIT LZR 000

Description

RENOLIT LZR 000 is a high quality semi-fluid grease with defined rust protection, based on lithium-calcium soap, carefully selected base oils and additives.

RENOLIT LZR 000 has good thermal stability, good pressure capacity, it is water resistant, minimizes wear and has good adhesion to metallic surfaces.

Application

RENOLIT LZR 000 is primarily used in centralized lubricating systems of trucks and commercial vehicles.

Furthermore, RENOLIT LZR 000 is usable in low loaded industrial gears.

Shelf Life

The minimum shelf life is 36 months if the product is properly stored between 0°C and 40°C in its unopened original container in a dry place.

Advantages

- Water resistant
- Pressure-loadable
- Adhesive
- Temperature stable
- Wear reducing
- Defined corrosion protection
- Suitable for low temperatures
- Good pumpability in central lubricating systems
